## Data & Insights on Private Market Investments

*Verified data, reports, and analytics to help private market investors make smart, easy & informed decisions when investing in private companies.*

### DATA GUARDRAILS FOR YOUR BUSINESS AND INVESTMENTS

In an increasingly demanding market for private company transparency, it takes rigorous commitment to satisfy our customers due diligence demands. That's why the largest law firms and financial service firms in the world rely on our data for critical decision making.

VC Experts owns a database of information other companies just don't provide. You want depth of information, not just topical data. That is the key to avoiding millions of dollars in lost investments due to under informed decision making. Reputational harm is at stake.

VC Expert's provides *first access* to private company filings. 100's of downloadable forms are available at your fingertips.
